

NATURAL LANGUAGE SITE SEARCH AND MERCHANDIZING FOR HYBRIS

Celebros Conversion Technologies is a Gold hybris partner with the only certified Site Search extension for hybris.

Celebros revolutionized the e-commerce industry by pioneering intelligent, concept-based, semantic Site Search for e-Commerce merchants worldwide. Celebros caters to more than 300 e-Commerce retailers in 11 countries, representing a broad range of industry segments, revenues and catalog sizes.

As GOLD hybris partners with the only certified Site Search extension, Celebros seamlessly enhances e-Commerce businesses that are focused on growth and superior user experience, with rich, natural language Site Search, Navigation and Merchandising technologies available in 7 languages.

The Celebros learning, semantic Site Search technologies use 250 natural language and conceptual algorithms as a bridge between “human terminology and the product catalog”. Natural language Site Search, translates your customer's unique and personalized search terms (queries) that are being used in your search bar to provide the correct results, filters and refinements, every time on the first page.

Celebros clients enjoy a personal account manager that is available in their time zone and 24/7 support from our team of search and support experts – world-wide.
