

Investment offer: turn-key wind farms and single wind turbines, operational wind farms

As one of our services we offer investment opportunities in several wind farms (2 – 15 turbines per wind farm) and single wind turbines on site (manufacturer e.g. Enercon, VESTAS, GE Wind, NEG Micon, Repower) with commissioning years between 1999 and 2014.

Amongst others wind farms and single turbines with the following WTG types are available:

REpower MM82, MD70, MD77, Senvion MM92, VESTAS V80, VESTAS V90, NEG Micon NM 60/1000, NEG Micon NM 1.000/60, NM82, NM 48/750, NM 52/900, Enercon E70, Enercon E82, Lagerwey LW750, GE Wind 1.5s, GE Wind 1.5sl, GE 2.5-120)

Professional maintenance, technical operation and commercial management are also secured for the future of course.

Furthermore EcofinConcept offers investments in several turn-key wind farms and single wind turbine projects with commissioning between 2015 and 2016 following the current planning. Most of these wind farms will be fitted with **Nordex N117, N131, VESTAS V90, V112, V117, V126, ENERCON E-82, E-92, E-101, E-115, E-126, GE 2.85-103, GE 2.5-120, VENSYS 112, 120, eno 92, eno 114, eno 126 and Senvion MM82, MM92, 3.2M, 3.4M** wind turbines (wind turbine generators WTG).

Share-deals of 100% of the stakes or asset-deals are possible near term.

Sites of the wind farms and single wind turbines are located in the German states Brandenburg, Saxony, Saxony-Anhalt, Lower Saxony, Schleswig-Holstein, Mecklenburg-West Pomerania, Bavaria, Rhineland-Palatinate, Thuringia and North Rhine-Westphalia.

If you are interested in our procurement services, do not hesitate to contact us. Concerning confidentiality we do not provide detailed information on this website.
