

VISION

Payrex Is One of the Leading Fintech Companies in Europe

Payrex's digital payment platform simplifies access to online commerce, enabling the creation of new businesses, accelerating the growth of existing businesses, and strengthening economic performance and global trade.

MISSION

- We strive at all times for simplification in digital money transactions, increased processing speed, cost reduction, strong service orientation and high compliance, transparency and the exploitation of network effects.
- We ensure that digital payments are secure, efficient, integrable, accessible and comply with international standards.
- The success of our users is our top priority.
- Our actions ensure the successful, sustainable growth of the company and thus also the future of our employees.

CORE VALUES

- Our actions, our thinking and every decision are based on our values. We want every employee to identify him/herself with our values and embrace our corporate culture.
- Our three fundamental values:
 1. Customer satisfaction is our top priority.
 2. Simplicity and automation are the key to success.
 3. Forward-looking through innovation, anticipation and high-quality work.

PAYREX SOLUTIONS

To ensure that small and medium-sized businesses can also benefit from the boom in online retail and receive online payments, the Payrex platform offers simple payment tools. Online merchants do not need their own website or programming skills to offer Visa, Mastercard, PayPal and over 200 other regional and global payment methods and wallets.

We are a registered Payment Facilitator of Mastercard and Visa for Switzerland and a Payment-Service-Provider (PSP) and Payment Gateway solution for Europe and the rest of the world. We operate our own PSP called Payrex Direct, additionally we have integrated over 45 PSPs as connectors.

Merchant Services

In direct sales, Payrex develops and distributes the simplest all-in-one platform for digital payments in the market.

Whether products, services, tickets or vouchers are sold, membership fees are included or donation projects are carried out - Payrex makes this possible with the self-service tools. Thanks to a payment website with its own URL, one-page shop, checkout page, payment link and invoice tool, money can be received within minutes.

Platform Services

For Partners, Payrex offers innovative cloud-based platform and marketplace payment solutions.
