“SprachKraft has helped to make my doctoral thesis more readable and easier to understand. My work has won two scientific awards. It has also been published as a book by now.”

Daniela Rupp, Ph. D., Institute for Optics and Nuclear Physics at the Technical University of Berlin

“The fact that the people from SprachKraft had not studied what I have was actually hugely beneficial. My Master’s Thesis received the top grade. Especially when the deadline is approaching, it is good to have such professional help at your side.”

Axel Römer, Master in Physics at the Institute of Solid State Physics of the Technical University Berlin

“SprachKraft was a great support in the finishing of my thesis. German is not my mother tongue. SprachKraft proved to be of great help in finding the perfect German words. I received a good grade. I am very grateful to SprachKraft.”

Adrien Fogain, Computer Specialist with a certificate from the Berlin Chamber of Commerce
